PROFESSIONAL PROFILE

Economist with experience across research institutions and public organisations, working at the intersection of innovation, data, and public policy. Focus on how institutions make decisions, how evidence is structured, and how public systems adapt to technological and organisational change.

Current work centres on data protection technologies and the responsible use of data and AI, including privacy-preserving approaches such as synthetic data. Combines quantitative analysis with practical engagement across technical teams, researchers, policy stakeholders, and innovation actors to support informed decision-making and cross-institutional collaboration.

KEY COMPETENCIES

Responsible data use and privacy-preserving approaches; quantitative and policy-oriented analysis; multi-institutional coordination across research and innovation ecosystems; stakeholder engagement across research, public-sector, and private-sector environments; reproducible data workflows; preparation of technical and policy outputs (notes, white papers, reports); training and mentoring.

PROFESSIONAL EXPERIENCE

Senior Data Scientist

Jan 2024 – Present

Luxembourg National Data Service (LNDS), Luxembourg

- Lead strategic partnerships and stakeholder engagement across research, institutional, and innovation ecosystems.
- Lead development and delivery of data services and project implementation.
- Drive data service innovation (analysis, standards, enrichment).
- Contributed to cross-institutional initiatives related to data and innovation services.
- Shape LNDS data catalog and contribute to Knowledge Hub content.
- Design and deliver training; mentor junior staff.
- Led taskforces on privacy-enhancing technologies and business development.

Postdoctoral Researcher (Economics of Science & Innovation)

2021 – 2023

Sciences Po & Université Côte d'Azur

- Conducted empirical analyses on research and innovation systems.
- Evaluated public funding mechanisms and organisational behaviour.
- Contributed to policy-oriented outputs for public authorities, including a report for the French Ministry of Higher Education and Research.
- Collaborated with institutional and ecosystem stakeholders on innovation-related initiatives and outreach activities.

Doctoral Researcher (Economics of Innovation)

2016 – 2020

University of Luxembourg

- Researched regional innovation and economic resilience using quantitative methods.
- Published a top-cited article in the *Journal of Regional Science*.
- Presented findings to academic and policy audiences across Europe.

Earlier Experience (Selected)

- Data Manager / Statistical Consultant — World Health Organization (WHO)
- Research Fellow — Rovira i Virgili University
- Young Scholar — Syrian Trust for Development

TEACHING & SUPERVISION

Lecturer, Business Competitiveness and Strategic Management — Université Côte d’Azur (2023).

Teaching Assistant, Economics and Management of Innovation — University of Luxembourg (2017–2019).

EDUCATION

PhD in Economics, University of Luxembourg

MSc in Economics, Universitat de Barcelona

BSc in Economics (Applied Statistics), Damascus University

TECHNICAL SKILLS

Python, R, Stata, SQL, GIS; reproducible research; version control; structured data workflows; privacy-preserving methods; interest in causal AI and emerging analytical approaches; $\text{\LaTeX}$; MS Office.

LANGUAGES

English (C2); Kurdish (mother tongue); Arabic (native); French (A2); Luxembourgish (A2); Spanish (B1); German (A1)

SELECTED HONORS

Top-Cited Paper Award, *Journal of Regional Science*

Postdoctoral Fellowship (IDEX), Université Côte d’Azur

Erasmus Mundus Scholarship (fully funded MSc), Technische Universität Berlin; degree awarded by Universitat de Barcelona
